PRODIGY®
Interactive Personal Service

DISCOVER A WORLD CONVENIENCE

If you just use your computer for spreadsheets or word processing or games, you're not getting the most out of it. With this offer, you can get FREE PRODIGY® software to connect your computer (via a modem and a regular phone line) to the PRODIGY® service, the home computer network that can help you be more productive and have more fun.

With the PRODIGY service, you can take an active part in your child's education. There's a 33,000-article encyclopedia online, updated quarterly to put the latest facts at their fingertips. Online features from WGBH's NOVA teach kids about science, and National Geographic lets them explore the world. And it doesn't stop there—because with games like “Where in the World is Carmen

Sandiego?” kids learn geography even while they're having fun.

You'll learn too. With the PRODIGY service, you're connected to a network of millions of other members across the country. You can read columns by experts on everything from baseball to wine.

The PRODIGY service gives you sport scores while games are in progress, plus stats and standings. A 13,000-title Movie Guide can help you pick just the right film to rent, and online news and reviews keep you up-to-date on books, music and TV.

You can get continually updated news and Accu-Weather® forecasts, save time using your home computer to pay bills from your existing checking account, get news on business and the economy, even follow the stock markets throughout the day.
